Support the Global Health Impact Project in Nicaragua!

The student-led Unidos con Los Robles Momentum Crowdfund campaign is approaching the $5,000 mark! The campaign, led by a multidisciplinary group and graduate and undergraduate students, is raising $15,000 to improve the health and economic conditions for the residents of Los Robles, Nicaragua. The funds will provide needed supplies for the community’s health clinic along with funding an in-country, 10 week, health intervention consulting project this summer – the Global Health Impact Project (GHIP).

To help us reach our $15,000 goal faster, we are excited to announce that the next $2,000 in gifts to the campaign will be matched dollar for dollar by Social Enterprise at Goizueta. $25 becomes $50, $50 becomes $100 and so on! A great way to make your gift go farther. Make your gift by Wednesday, April 27 at 11:59 PM to qualify.
