

Emory Global Health Institute (EGHI) works at the intersection of education, research, and practice to achieve global health impact.

STUDENTS FLOURISHING

Offering opportunities for students to gain real-world experience working with people from diverse backgrounds and disciplines, EGHI is preparing the next generation of global health leaders. Since 2006, more than 5,400 Emory students and 2500 international students have participated in EGHI's experiential learning programs including:

- EGHI Global Scholars Program
- EGHI Global Health Student Photography Contest
- EGHI Student Advisory Committee
- Warren Westerberg Global Health and the Arts Prize
- Intramural Emory Global Health Case Competition
- Emory Morningside Global Health Case Competition

NETWORK AND RESEARCH EXCELLENCE

The International Association of National Public Health Institutes (IANPHI) collectively builds public health capacity and capabilities by connecting, developing, and strengthening national public health institutes worldwide.

Child Health and Mortality Prevention Surveillance (CHAMPS) is a global network that collects, analyzes and shares evidence on child mortality in regions where it is highest, empowering public health action to save children's lives.

Treatment, Research & Expert Education (TREE) shares and develops knowledge, skills, and expertise in low-resource settings to improve women's health outcomes and advance global health equity.

FACULTY EMINENCE

More than 450 faculty from across 57 departments and nine schools have participated in EGHI programs.
